

INFORMATION SYSTEMS TECHNICIAN

Big Bend Electric Cooperative, Inc.

Salary: DOE

Open until filled

Posted June 25, 2009

Big Bend Electric Cooperative (BBEC) is seeking a versatile individual motivated to plan, evaluate, deploy, and operate/troubleshoot various technology systems including our network computer system, remote equipment data acquisition, automated metering, smart grid technologies, radio system, website, various computer hardware and software applications, and other technical assignments. Flexibility in job design and job training is available for qualified candidates. Creativity in integrating technologies for cost-effective, long-term efficiency will be an important aspect of this position.

Minimum position requirements are: HS degree or GED; courses in PC technology and network administration (including certification); experience installing, maintaining, and troubleshooting computer and communication hardware and software; and, knowledge of websites and email. Familiarity with radio and phone systems and data management involving computer systems, meters, and utility electrical and communication equipment is a plus. Physical exam, drug and alcohol screening, valid driver's license, and residence within 30 minutes of Ritzville are also required.

BBEC serves over 8,400 meters over 2,300 miles of line and is a stable, financially sound consumer-owned electric utility headquartered in Ritzville, WA, population about 1,800, centered in a primarily agricultural area. For a detailed job description and more information about BBEC, visit www.bbec.org.

BBEC offers excellent benefits and a competitive wage. Please send your resume, three or more professional references, and salary history to:
